

The year is 2096 A. D. Following the Great Water Wars, the Earth is a hostile place and Christianity has been outlawed. Two classes of people have emerged; wealthy Technocrats and the poverty-stricken Plebots. In Old New York, hundreds of thousands live no better than animals. The World Government is about to reclaim these slums by emptying them with a heat bomb, but a secret resistance committee has a plan to stop the slaughter and bring hope. All they need is a hero. Enter Mok, a Plebot with knowledge of the Galilee Man. This previously released series of six books follows the quests of Mok as he travels through virtual time-now combined in one volume.
