

An indispensable resource containing more than 100 new monsters for any Dungeons & Dragons® game. This supplement to the D&D game provides descriptions for a vast array of new creatures. Several design changes have been implemented from previous monster titles due to fan feedback. Each monster will now be illustrated, and each entry will now begin at the top of its own page. Both of these changes are meant to facilitate faster gameplay. There will also be details on how to include any creature in a Forgotten Realms® or Eberron campaign.
