

The account of the battles at Gettysburg, prepared by the Rev. Dr. Jacobs, Professor of Mathematics in Pennsylvania College, will take a place among historical documents of high permanent value. It is the record of an eye-witness, made, in large part, while the scenes he describes were passing before him. The author is distinguished as an acute observer, as a man of clear judgment and of great conscientiousness, who is not only scrupulous as to the substance of his statements, but cautious in their tone and coloring. His chronicle will be found a chronicle of facts. What he knows is carefully sifted from what he conjectures :of the former we have much, of the latter almost nothing.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
