

Featuring an accessible and diverse collection of more than 60 writings by a variety of scholars, this anthology demonstrates how the complex intersection of people's race, class, gender, and sexuality shapes their experiences and who they become as individuals. Each reading in RACE, CLASS, & GENDER addresses a timely-and often controversial-topic, such as health care inequality, undocumented students, domestic violence, genetic technologies, and the effect of the media on body image, thereby giving readers a multidimensional perspective on a number of social issues. Co-editors Andersen and Collins begin each section with an in-depth introduction to provide an analytical framework for the articles.
